

CHRIS BOYDSTUN

FULLSTACK WEB DEVELOPER,
TECHNICAL WRITER,
& CODING INSTRUCTOR

Chris Boydston is a powerhouse in the tech world, boasting over 15 years of multifaceted experience. Calling him a jack-of-all-trades doesn't quite capture the depth of his expertise. Chris has immersed himself in full stack web development, technical writing, curriculum development, and AI tool specialization, making him a go-to expert in the industry.

Chris's portfolio is as diverse as it is impressive, spanning the creation of instructional courses, in-depth blogs, and cutting-edge articles for leading tech companies and educational institutions. He thrives on making complex concepts accessible and engaging, all while maintaining the highest standards of technical accuracy. Known for his versatility, Chris seamlessly adapts his writing to suit any audience, whether they are seasoned developers or tech novices. His passion for technology and education shines through in every project he undertakes, ensuring that his work is not only informative but also inspiring.

Texas Tech University

SKILLS

Copywriting

Full-Stack Development

Robust Infrastructure Architectures

CI/CD Processes

Application Performance

Technology Trends

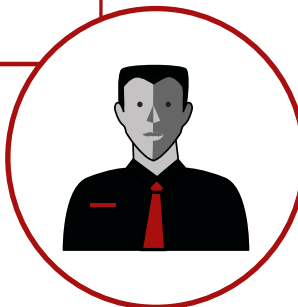

DID YOU KNOW?

Chris was a classroom instructor and curriculum author before becoming fluent in web development and software engineering principles. Those experiences and skills give him a better understanding of what it takes to help people understand difficult concepts. He loves to communicate complicated topics in a simple, easy manner.

TIME OFF!

When he's not writing, Chris is busy as a proud father of two boys with a little girl on the way. He enjoys taking his boys out to experience nature as well as nurture entrepreneurial ambitions from a young age.
