MORRIS **VAUGHAN**

TECHNICAL WRITING CONSULTANT

Whether you need to explain the lastest software bugs to a veteran programmer or a five-year-old, Morris can break down the most complicated topic into clear and simple context. As a technical writer, he writes on subjects ranging from software to programming, biotech, fintech, and engineering-related topics.

A business analyst and senio technical writer for Thermo Fischer Scientific, Morris has more than 25 years experience making use of his engineering background and transforming the ideas of engineers and scientists into readable, translatable English
